Celebrating America's 250th Anniversary*

PRESENTED BY

JUNE 2026

The American Story Is Still Unfolding.

For 250 years, generations of dreamers, builders, innovators, explorers, artists, workers, families, and visionaries have helped shape a nation unlike any other.

E Pluribus Futurum was created not simply to honor where America has been, but to celebrate where America can still go.

Through music, storytelling, art, heritage, and shared experiences, this project invites us to reflect on our past, embrace our present, and imagine the possibilities of our future.

Because the next chapter belongs to all of us.

OUT OF MANY, A FUTURE

WHY AMERICA 250TH *Matters*

By Samuel Kelly

- ★ **America's 250th Anniversary matters** because it reminds us that the American story has never been written by one generation, one community, or one voice.
- ★ It has been shaped by millions of people from different backgrounds, different experiences, and different walks of life—each contributing their own chapter to a story still being written.
- ★ The history of our nation includes extraordinary achievements and difficult chapters alike. It is a story of perseverance, sacrifice, courage, and hope. It is a story of people who believed in possibilities even when the path forward was uncertain. It is a story of individuals who worked to expand opportunity, strengthen communities, and leave the country better than they found it.
- ★ I have faced challenges in my own life that have shaped who I am today. Like many Americans, I have experienced setbacks, obstacles, and moments that tested my determination. Yet those experiences also taught me the value of resilience, faith, creativity, and the belief that our future can be greater than our past.
- ★ ***That is why America's 250th Anniversary is so important.*** It is not simply a celebration of where we have been. It is a reflection on how far we have come together and an invitation to imagine what we can become.
- ★ For 250 years, Americans from every race, culture, background, and belief have helped build this nation. Inventors and explorers. Teachers and workers. Veterans and volunteers. Artists and entrepreneurs. Parents and dreamers. Every generation has added something meaningful to the American experience.
- ★ The phrase *E Pluribus Futurum*—“*Out of Many, A Future*”—captures that spirit. Our differences are not weaknesses to overcome. They are part of the strength that allows us to innovate, create, adapt, and grow. The future of America will be shaped not by one voice, but by all of us working together to build something worthy of those who came before us and those who will follow after us.
- ★ As we commemorate America's 250th Anniversary, I hope we take time to celebrate the progress we have made, learn from our history, honor the people whose sacrifices brought us here, and embrace the opportunities that lie ahead.

***The American story is still unfolding.
And the next chapter belongs to all of us.***
